## EMPLOYMENT

Glasgow City Council

### Growing a green economy

Because of Glasgow's work to become an economic powerhouse for the green economy, we now have the largest number of renewables jobs of anywhere in Scotland. A green jobs strategy is being drawn up as a key element of the city's new economic strategy and again it has a major emphasis on well paid jobs for our people as part of the sustainability and social justice agenda. In that light, an annual green jobs fair has now been established for young people from S2 and S3 classes.
